

# Magic 8 Ball User Manual

Anna Quigley SDEV140 Final Project

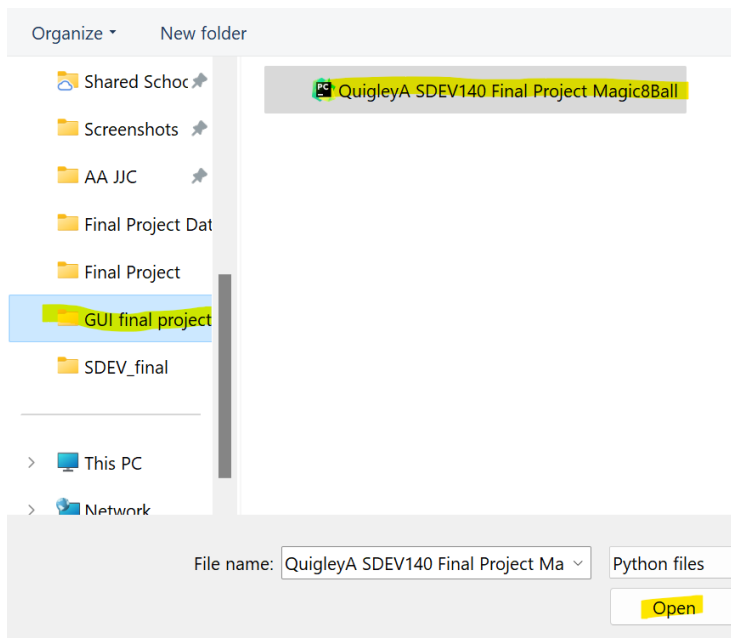

1. Open IDLE Python Shell

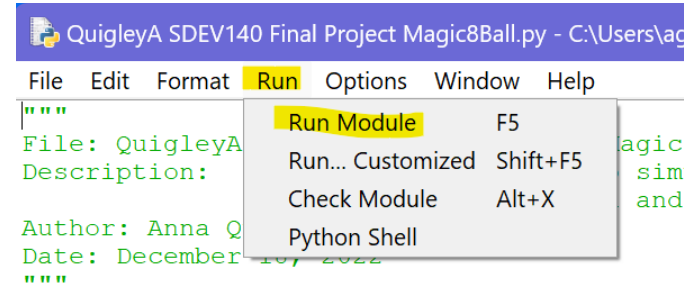

2. Under the **File** menu, select **Open...**

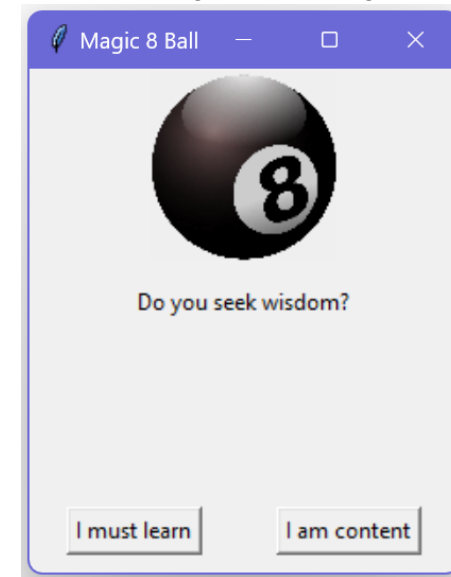

3. Locate the folder where the file is located, click on the file in the folder, and select **Open**

4. Under the **Run** menu, select **Run Module**.

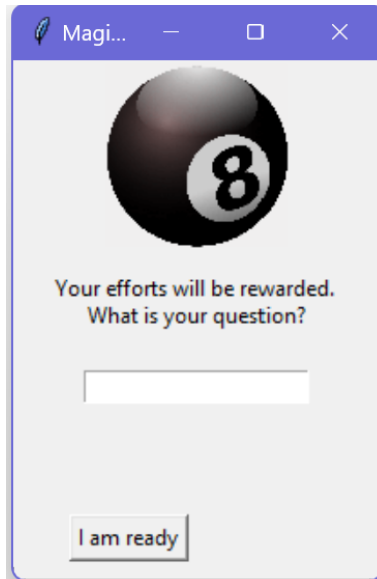

5. A new window will open, showing the following interface:

6. To ask the program a question, select **I must learn**.

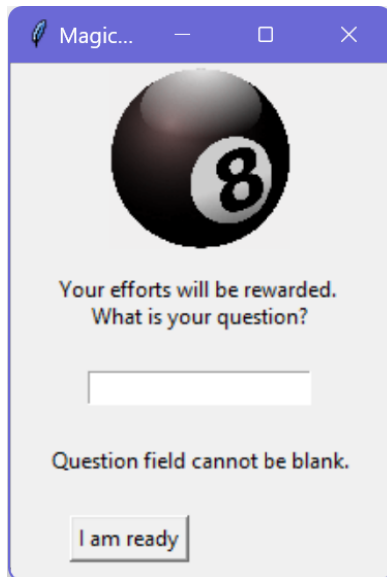

To exit the program, select **I am content**. This will take you straight to the farewell screen.

7. If you selected **I must learn** , you will see:

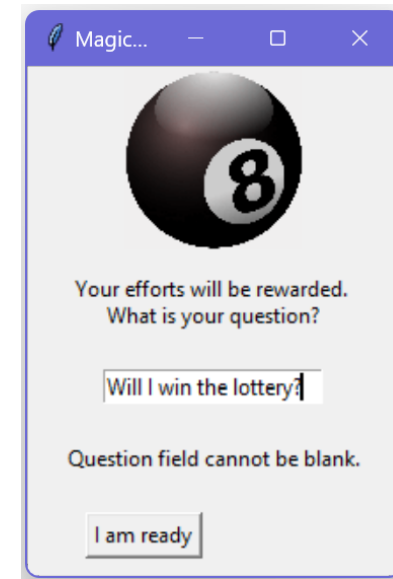

8. Enter your question in the text entry box, and select **I am ready** .

If you select **I am ready** before entering a question, you will see the following screen:

You must enter a question to proceed.

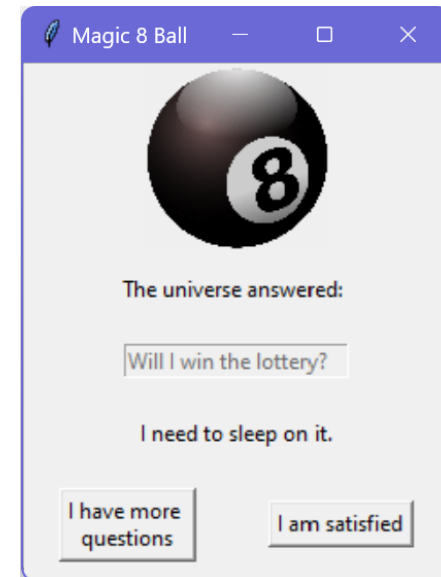

Ask the program anything, it won't judge!

9. After you enter your question and select **I am ready** ,

it will display the next screen. The text entry box will be grayed out and you will not be able to change your question.

You will find the program's answer to your question directly underneath.

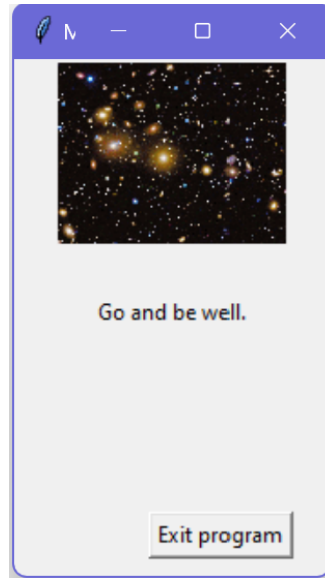

There are several possible answers, so if you would like to try for a different outcome or if you have more questions,

select:

I have more  
questions

Otherwise, select I am satisfied to proceed to the farewell screen.

10. The farewell screen is shown below.

Select Exit program to close the program.

Thank you for using my Magic 8-Ball program!
